CONVERTERS

Tara Plastics specializes in flexible packaging conversion. We pride ourselves on providing a consistent, quality product to our customers. We offer the size and gauge you need and all of our film products work great on most converting equipment.

BAGS-ON-ROLLS

We offer a wide variety of bags on roll products. From pre-opened, slit in front in many sizes, gauges for many types of industries. Improve your production with our easy open design allowing product to easily be put into the bag while still connected to the roll. All of our bags on roll products work great on most converting equipment.

STRING ZIPPER

We offer several sizes of String Zipper from 3.05 mm (0.120 in) to 3.55mm (0.135 in) for the packing of products ranging from Cotton Balls, Leafy Produce, and Light Bakery to Poultry, Frozen Foods, Industrial, Lawn & Garden and Large Hardware.

- Our proprietary resin blend delivers a consistently reliable seal – improving production-line efficiency and providing a higher quality finished product.
- Our patent pending Seal Guides provide improved stability in the application process creating a flatter surface on the finished package improving end-user ease-of-use.
- Our True-Wind Technology, utilizes an innovative, state-of-the-art, processor-driven puller/winder system that provides uniform coiling up and across the reel drastically reducing tangles during the application process.
